ISSUE1

Imagine you can switch between dimensions. You travel through time. You are able to sense what happened in the past or the future to come. There is nothing you can lose because all it is kept in a memory bubble you are holding the key of. It is a matter of frequency and your ability to resonate. In times we are overflowed with true and false information, who do we trust? Trust yourself is my answer and your creative power within. Your subconscious is always able to find the right way for you.

my passion  
is creation  
in all the ways  
at my disposal

This issue is about the artworks and the  
stories behind them.  
Each drawing or painting process contains  
information about the blueprint of the  
subject.

I find my flow in  
making the invisible visible  
The motive determines the result.  
I begin with a meditation to feel the subject's  
movement pattern and then allow it to take  
over as if it was me.

I felt like playing like a child  
twirling, hopping, singing,  
all the time  
This feeling did not change  
throughout the whole process.

the artwork measures  
60cm x 300cm and  
was created in landscape format

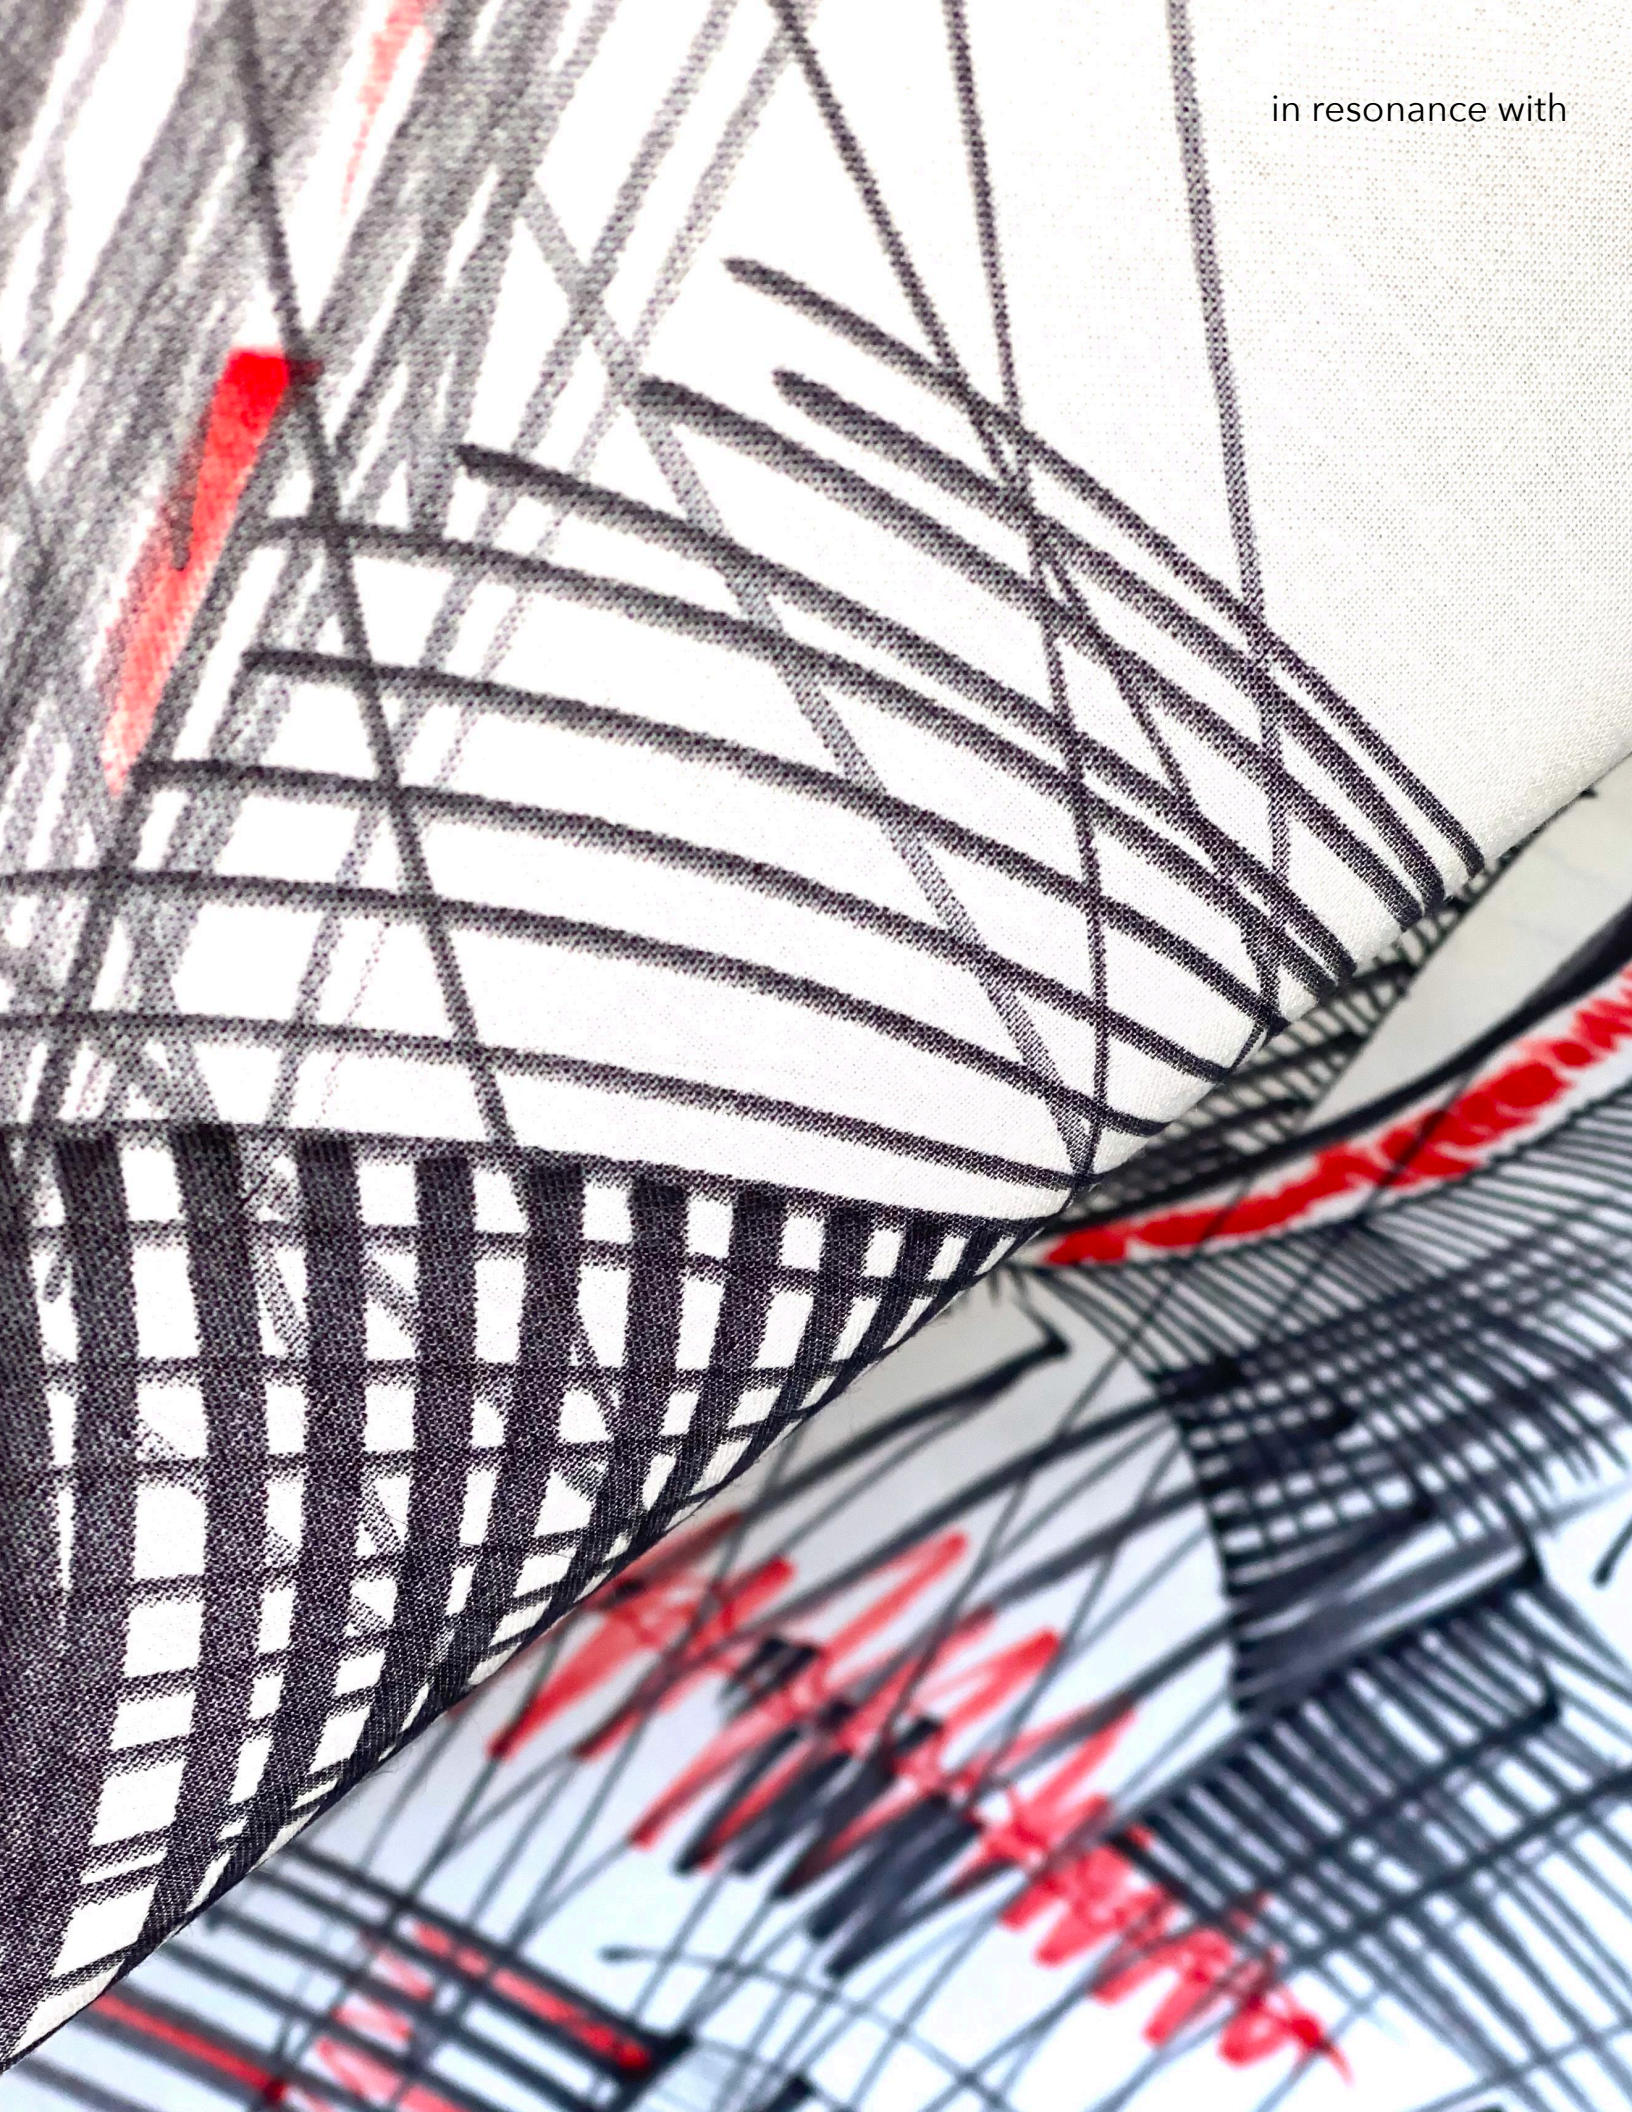

He left something behind. A symbol I  
could not decipher.

## Jimi **HENDRIX** and his music

*Well, Jimi was mere an exercise to prove what I was doing. I wanted to know if this artwork would turn out differently. And, as you can see, it did.*

I looked on the coated fabric laying on the ground to find the correct spot to start with the lines.

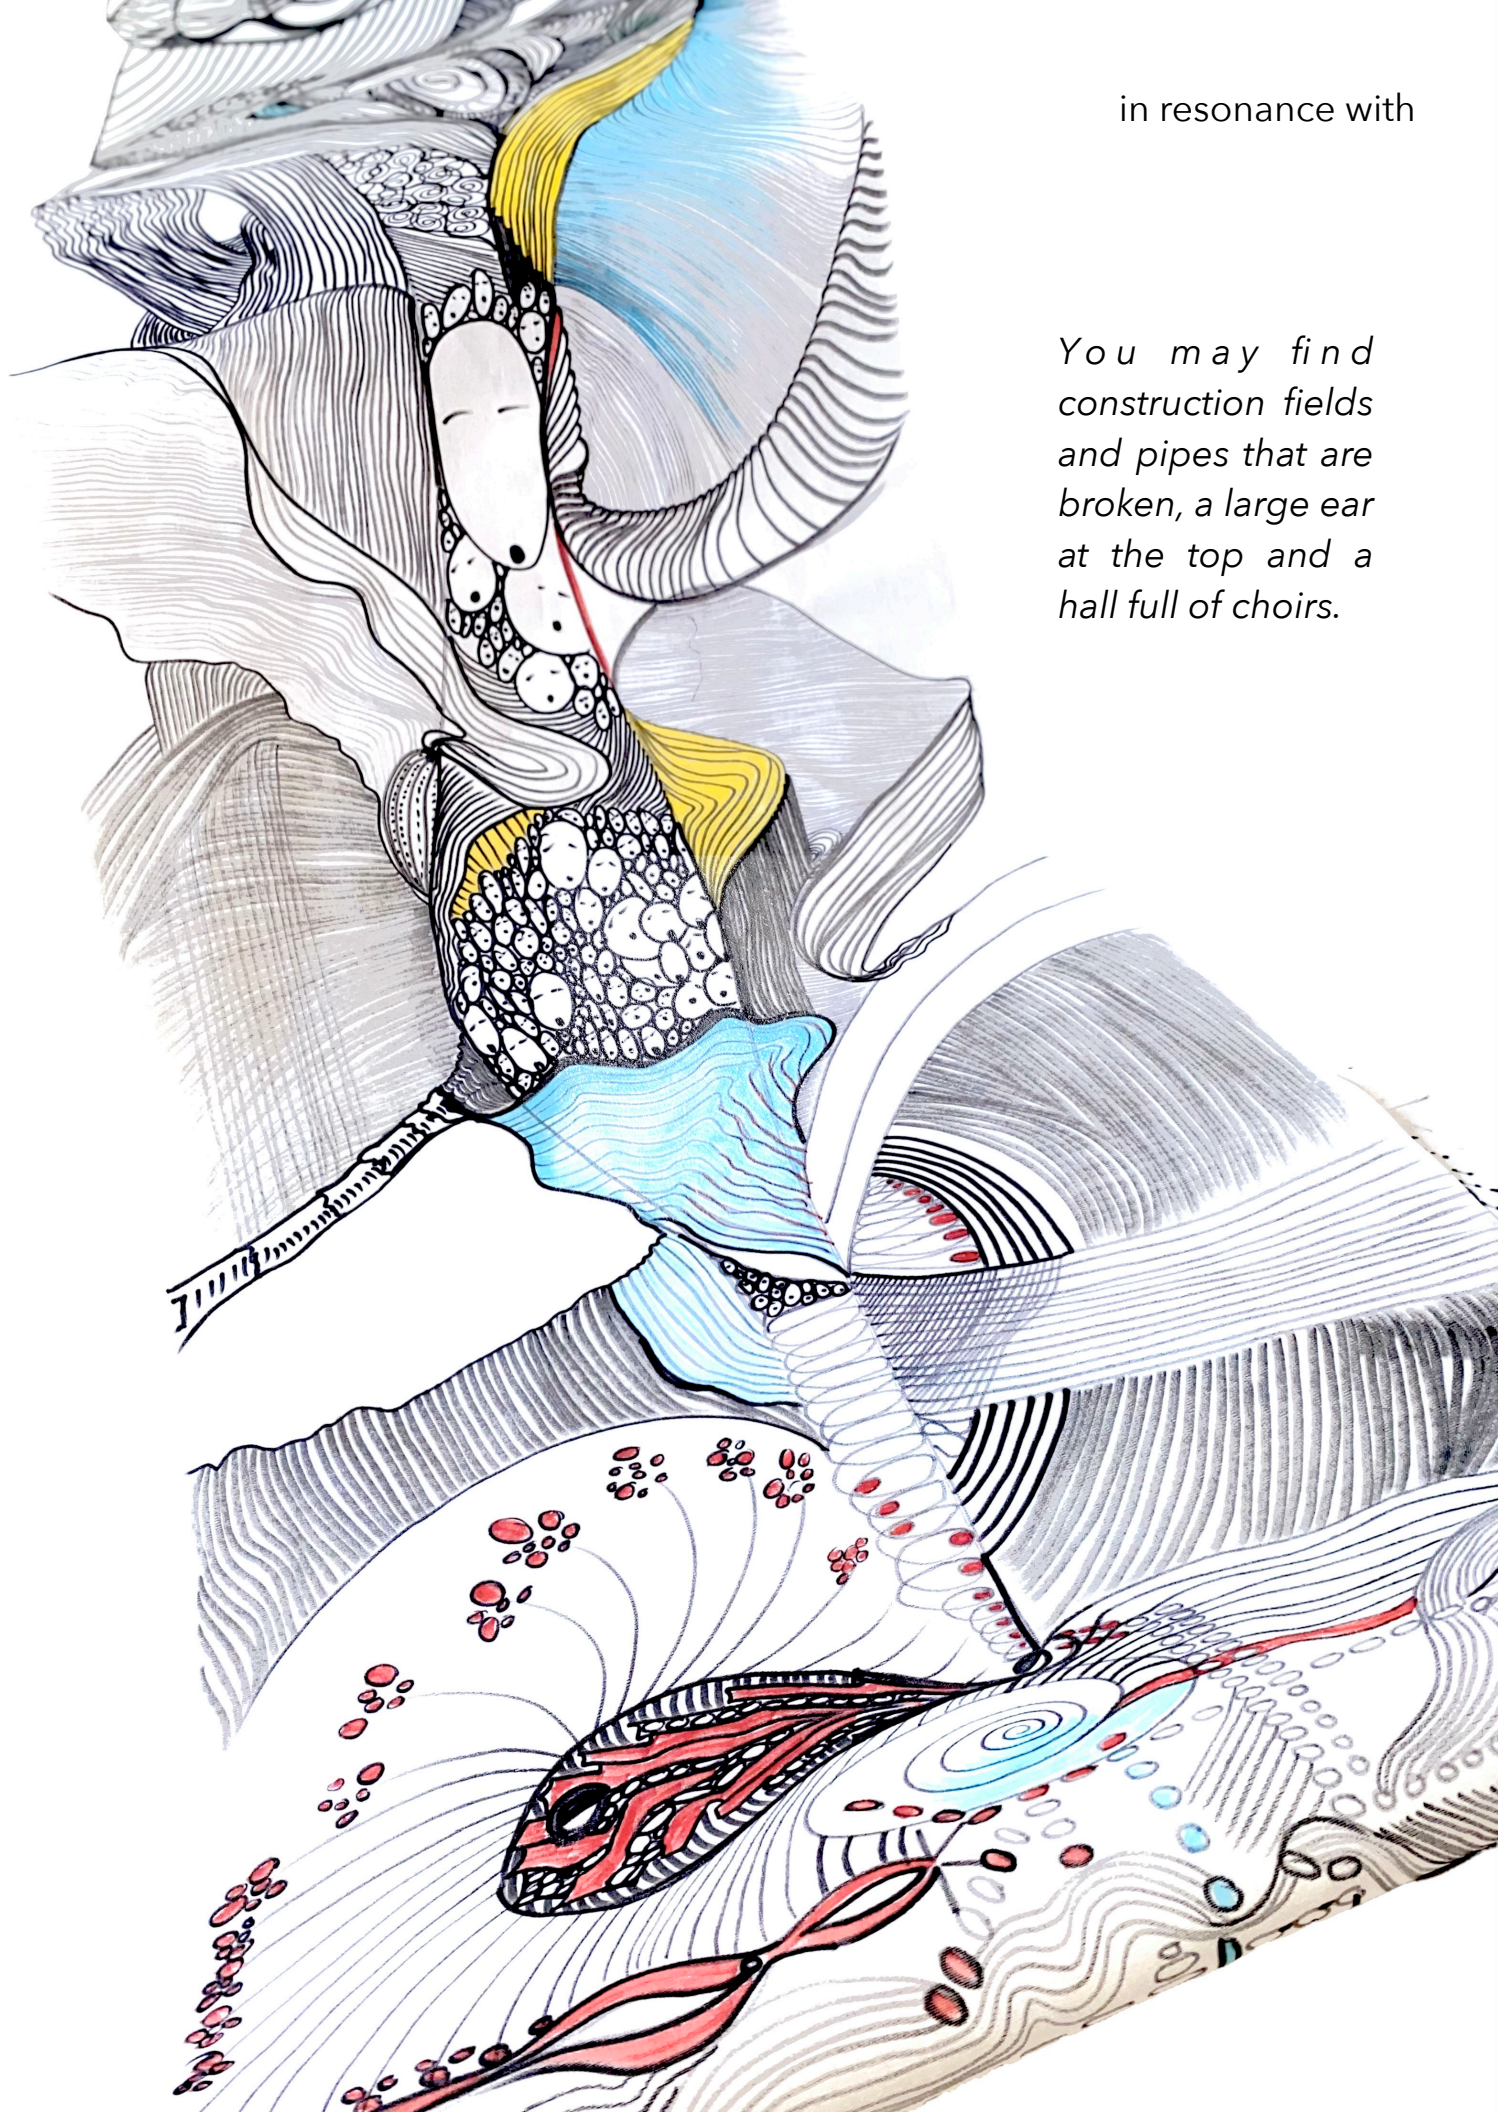

Not long then I felt the need to take two markers in my hand and draw with them simultaneously.

I wanted to explode, felt somehow dizzy and couldn't stop lining.

*You may find  
construction fields  
and pipes that are  
broken, a large ear  
at the top and a  
hall full of choirs.*

## Franz **SCHUBERT** and his music

A waterfall full of emotions.  
Three times love and a fourth in the mist.  
Piled up sequences of cellular diseases  
Longing for a rest.

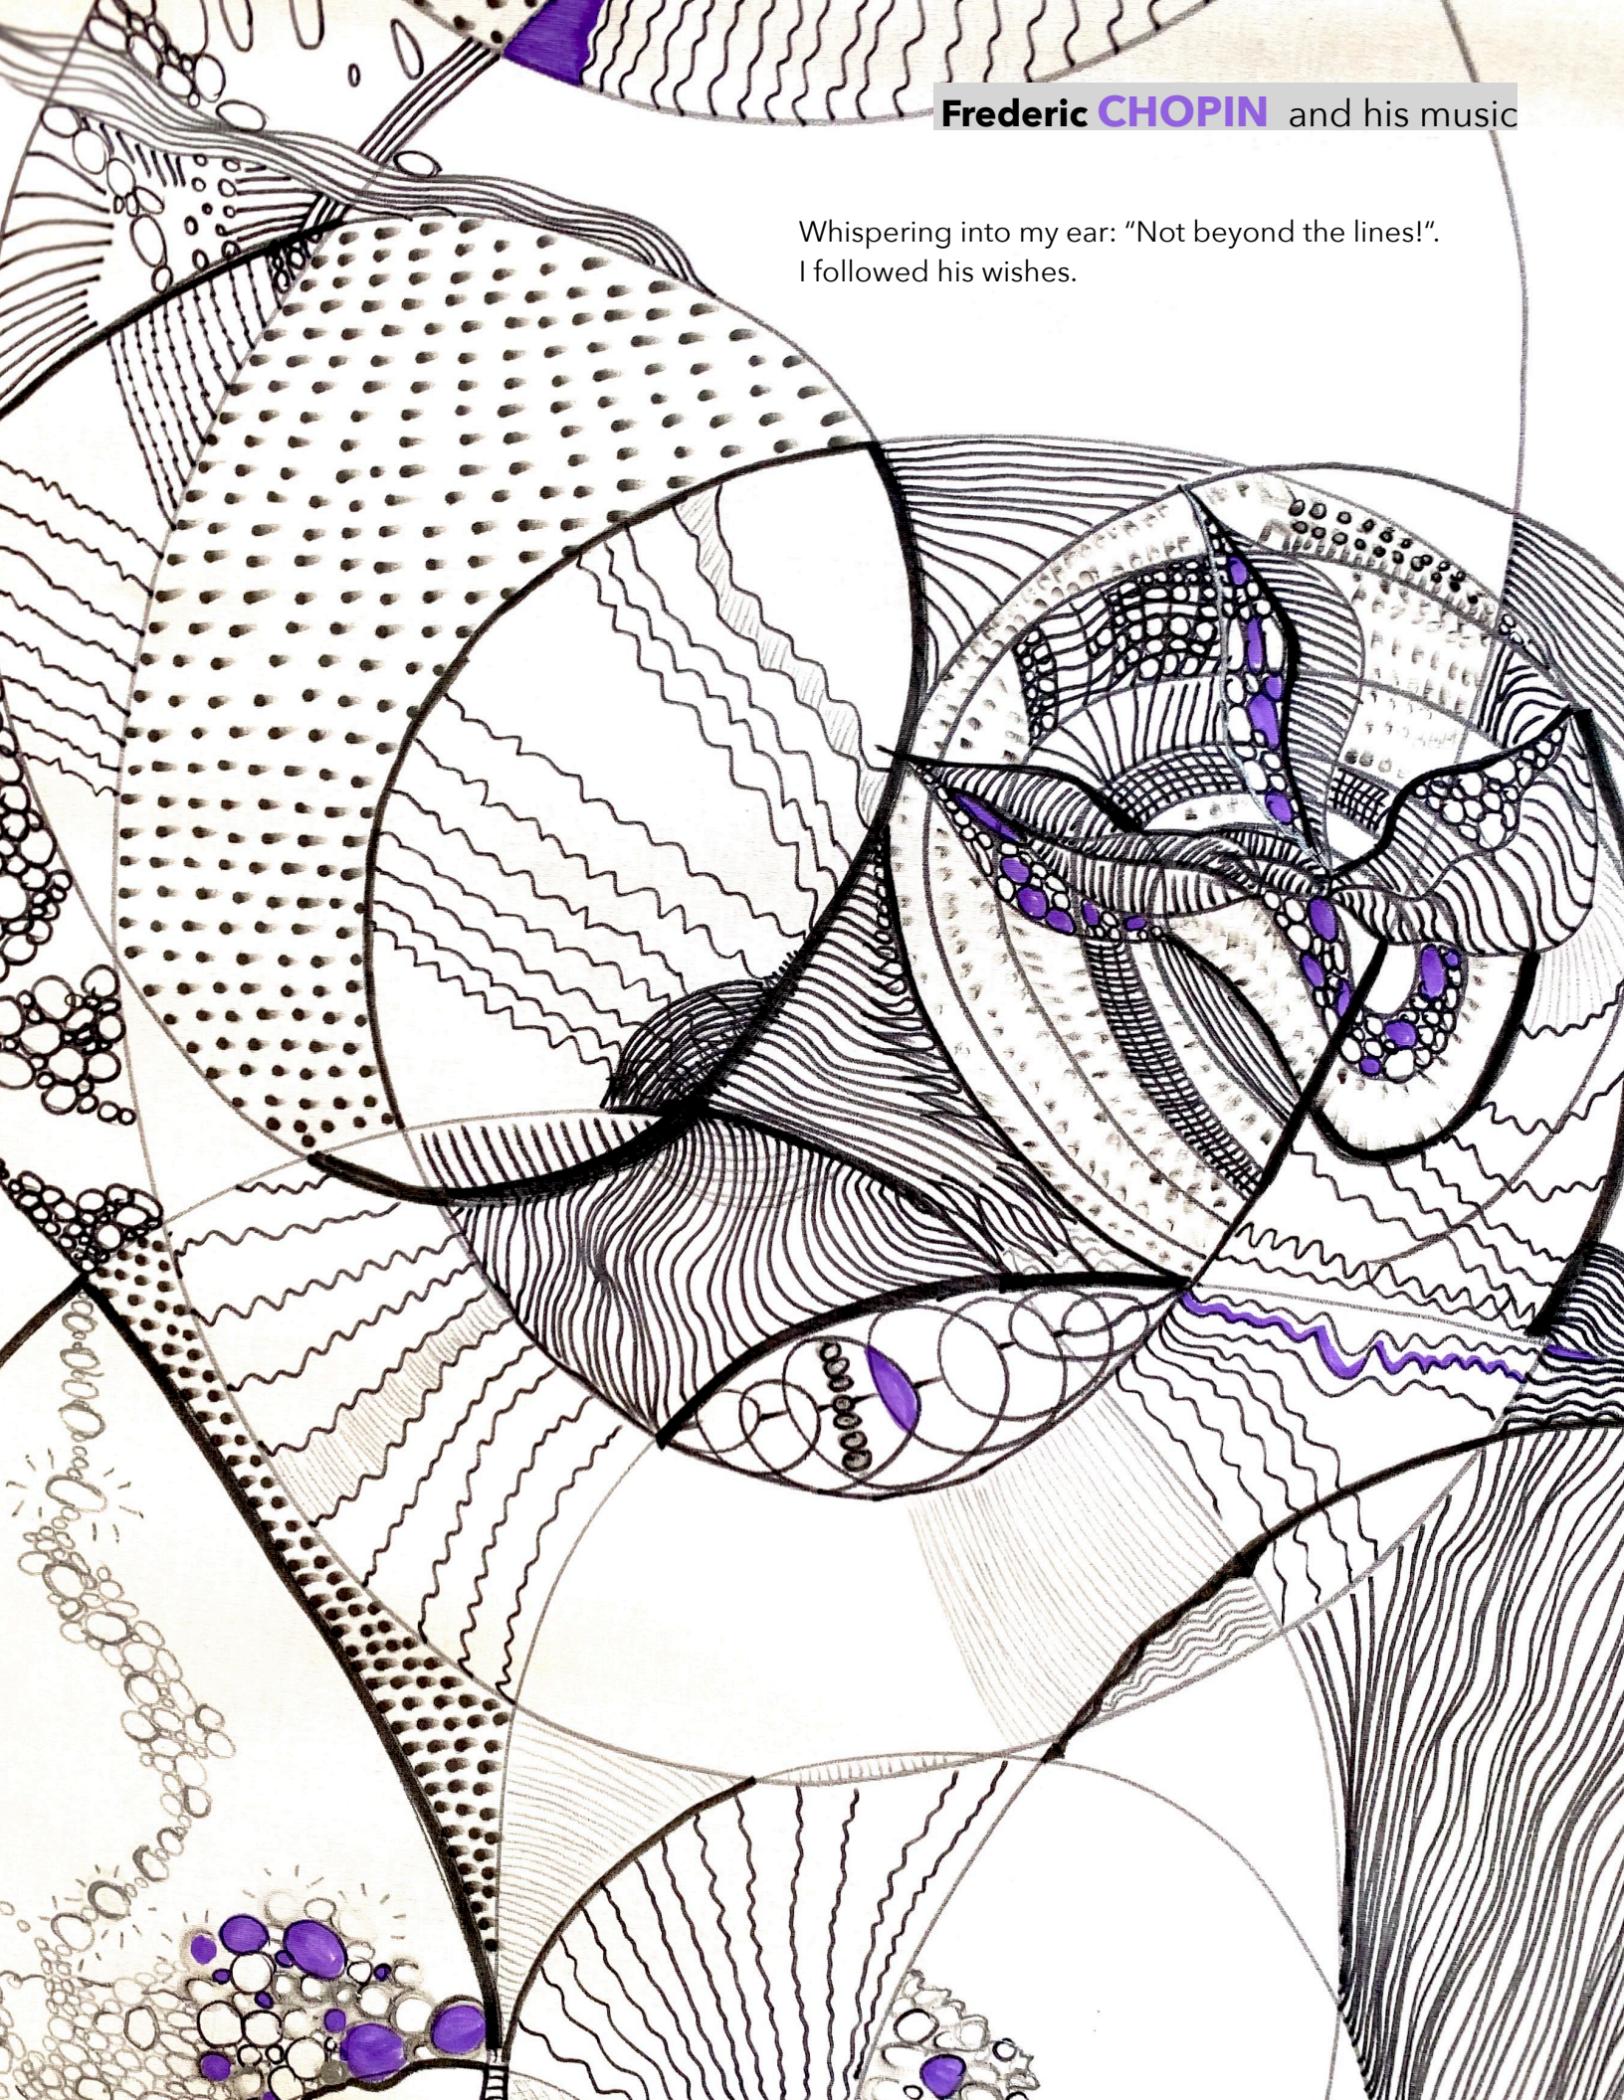

Ingenuity, motor of a constant flow  
Keeps him running fast  
'Cause time was short on earth  
To create a work that could last.

And it did.....

The background of the page is a complex, abstract drawing. It features several large, overlapping circles and arcs. Inside these shapes are various patterns: some have dense stippling, others have wavy lines, and some have concentric circles. There are also areas with small, irregular shapes and some solid purple patches. The overall style is reminiscent of a detailed, hand-drawn sketch or a complex geometric pattern.

**Frederic CHOPIN** and his music

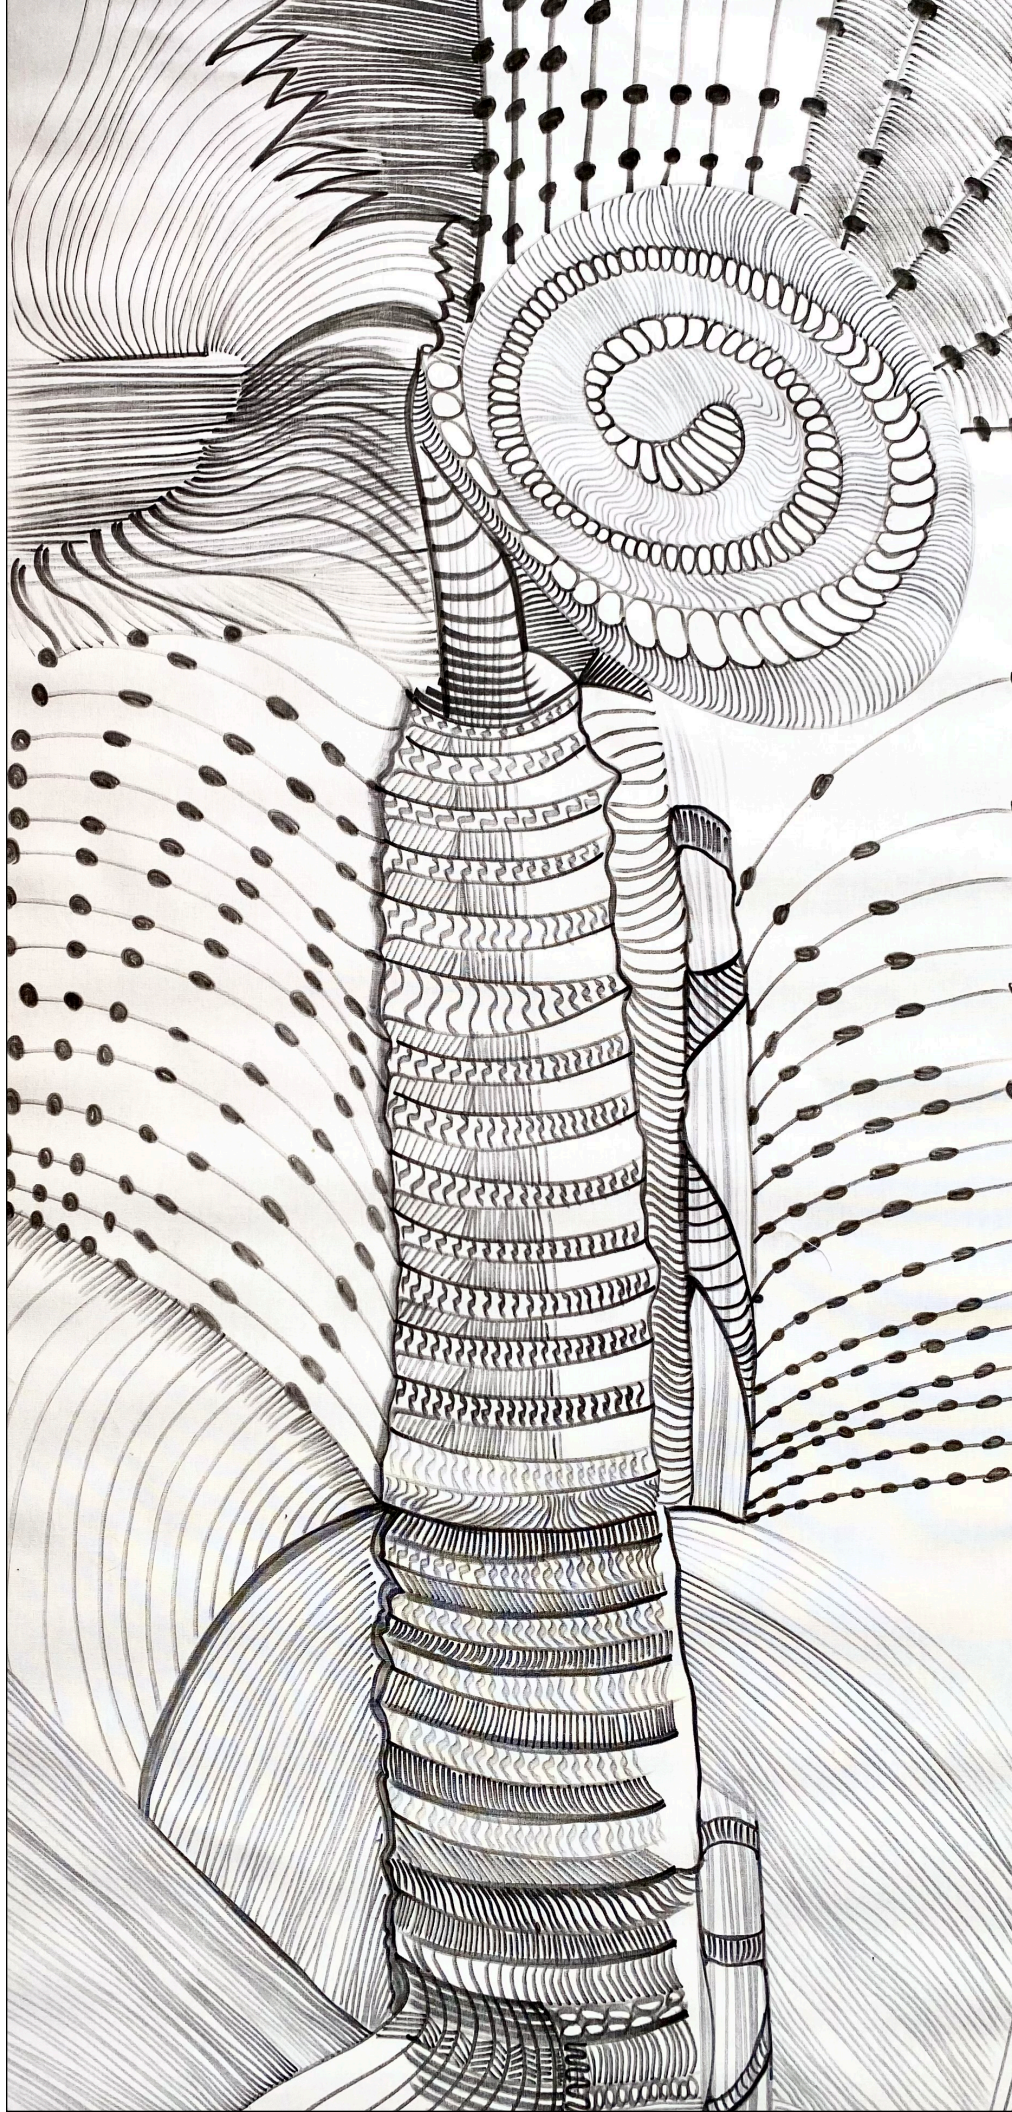

Whispering into my ear: "Not beyond the lines!".  
I followed his wishes.

Bound am I,  
bound to the wishes of others  
and my genius.  
My capability to obey  
is driving me into the wild.  
It is only forward I can walk,  
never back and my life comes  
in circles.  
Bound am I, bound to be fast  
and furious.
